[CC.2.4.5: GRADE 5](#)

- Standard

[CC.2.4.5.A.1: Solve problems using conversions within a given measurement system.](#)

- Assessment Anchor

[M05.D-M.1: Convert like measurement units within a given measurement system.](#)

- Anchor Descriptor

[M05.D-M.1.1: Solve problems using simple conversions \(may include multistep, real-world problems\).](#)

- Eligible Content

[M05.D-M.1.1.1: Convert between different-sized measurement units within a given measurement system. A table of equivalencies will be provided. Example: Convert 5 cm to meters.](#)

- Alternate Eligible Content

[M05.D-M.1.1.1a: Use a conversion table to identify equivalent standard measurements of length or mass.](#)

[Alternate Eligible Content is designed for students assessed using the PA Alternate System of Assessment \(PASA\). Essentialized Example resources assist teachers in designing instruction that reduces content complexity while maintaining alignment to academic standards.](#)
